

CITY OF ORLANDO

OFFICE OF
BUDDY DYER
MAYOR

June 21, 2011

GREETINGS!

I am most pleased to extend my warmest greetings to everyone attending the Air & Waste Management Association's 104th Annual Conference and Exhibition here in Orlando. I am certain that all delegates will be inspired by the presentations and exhibits at this Conference, and am equally certain that you will enjoy the many attractions that Orlando has to offer.

The theme of this year's conference – Beyond All Borders – is perfect for the City of Orlando and for the State of Florida. We pride ourselves in looking beyond borders – both in time and space – to find solutions to current environmental problems, and to continue to improve future environmental quality. The City of Orlando is deeply committed to environmental preservation as evidenced by our clean power production at the OUC power plant, our push to reduce our Carbon footprint, and our advanced wastewater treatment processes.

For more than a century, the Air & Waste Management Association has worked diligently to set the highest standards for quality in disseminating environmental knowledge, and providing a neutral forum for public discourse about environmental issues. You should take great pride in knowing that your efforts have had and are continuing to have a positive impact on air quality and environmental stewardship.

On behalf of the City of Orlando, please accept my best wishes for a productive and fun meeting.

Sincerely,

Buddy Dyer
Mayor
